

**UNIVERSITY OF OREGON
OFFICE OF VETERANS AFFAIRS
GUIDELINES FOR CHAPTER 33 AND FRY SCHOLARSHIP**

You must complete and submit an “Enrollment Information Form” at the beginning of each academic year. A “Summer Enrollment Form” is required for Summer Term. An “Approved List of Courses” is required for graduate and law students. The link to the forms are available at <https://registrar.uoregon.edu/current-students/veterans/benefits>. Also, you must notify our office via email when you have completed registration for each term.

The VA expects you to be working toward a degree, and you can only be certified for the minimum number of credits required for you to receive your degree. If you have successfully completed a course and choose to repeat it, the VA will not allow the course to be certified. A course cannot be certified with a grade option of Pass/No Pass if your degree requires that the course is graded. **During the term you are expected to maintain enrollment in the number of credits for which you have been certified. If you drop a course, or change the credits of a course, you should inform our office.**

The Post-9/11 GI Bill pays your benefit percentage of the housing allowance if you are considered more than ½-time (7 credits for undergraduate students and 5 credits for graduate and law students). The housing allowance will be prorated by the student’s rate of pursuit, rounded to the nearest tenth. For example, an undergraduate student taking 8 credits would have a rate of pursuit of 66% ($8 \div 12$) and would receive 70% of the housing allowance. The housing allowance and book stipend are paid directly to the student.

If you are living in one of the University of Oregon residence halls, the VA does not pay these charges.

The Post-9/11 GI Bill also will pay your benefit percentage of the actual net cost for in-state tuition and fees. The actual net cost for in-state tuition and fees is the amount after the application of any waiver of, or reduction in, tuition and fees; and any scholarship, or other Federal, State, institutional, or employer-based aid or assistance (excluding loans and funds under section 401(b) of the Higher Education Act of 1965) that is provided directly to the institution and specifically designated for the sole purpose of defraying tuition and fees. The tuition and fees payment is made directly to the University of Oregon.

If you receive a non-punitive grade (X, I, N, or W) in a course for which you have been certified, then it will be reported to the VA, and you will usually have an overpayment (Incompletes for undergraduates who are taking the course as graded are not reported). This overpayment will include a portion of the tuition and fees that has been paid to the University of Oregon by the VA.
